

Production Pricing for AIM Portal Wheel End Kits

AxleTech International Motorsports announces 2009 production pricing for its portal conversion system for Dana 60 and other axles.

Each portal conversion kit features

- Four drive/steer wheel ends with a direct interface to a Dana 60 kingpin inner “C” (high strength inner “C” recommended) for the four wheel steering configuration
- Two drive/steer wheel ends with a direct interface to a Dana 60 kingpin inner “C” (high strength inner “C” recommended) and two drive only wheel ends with adaptors to a Dana 60 rear axle for the two wheel steering configuration.
- 4 gear configuration (no flipped carriers or reverse rotation gearing required)
- 1.5” diameter / 35 spline 4340 steel input shafts
- 2” diameter / 41 spline 4140 steel output shafts
- Single Wilwood four piston caliper per wheel end
- CTIS upgrade if desired at no additional charge

Deliveries for the 4 wheel steering configuration are scheduled for March 2009.

Non-CTIS Version / 4 Wheel Steering Configuration

PN PCS-D60X-4WS.....\$6495.00/set

CTIS Version / 4 Wheel Steering Configuration

PN PCS-D60T-4WS.....\$6495.00/set
