Protection

A lot of thought has gone into making the Suzuki Grand Vitara a well protected car, which is a reassuring feeling off- and on-road. But since protection has various facets, you will find lots of useful suggestions on these pages to shield you and your Grand Vitara against many imponderables on your way. From bumper protection sets to touch-up-paint sets that make these nasty little scratches disappear. But also from fog lamps to reversing aid sensors. We have thought of everything so that you don't have to.
